

**ART OBJECTS — PREMIUM INTERIOR CLOCKS
WITH A DYNAMIC DESIGN THAT TRANSFORM
YOUR SPACE INTO A GALLERY OF STYLE**

ABOUT THE COMPANY

SIMAGIN — a Russian company that has gained recognition among the professional community of designers and earned the trust of clients and partners thanks to impeccable quality in its products and attention to every detail. We are proud of the fact that we successfully compete with manufacturers who have a long history and experience.

Alexey Russkin, the founder and leader of SIMAGIN, based the company on the Art Clocks project, valuing the best traditions and constantly striving for perfection, introducing advanced high-tech innovations, and turning time into a timeless masterpiece.

The company develops and manufactures unique wall clocks with a patented exclusive design. SIMAGIN is a reliable manufacturer whose products meet high-quality standards and are designed for long-term operation. Caring for clients and partners, we offer impeccable quality and a high level of service, including warranties and post-sales support.

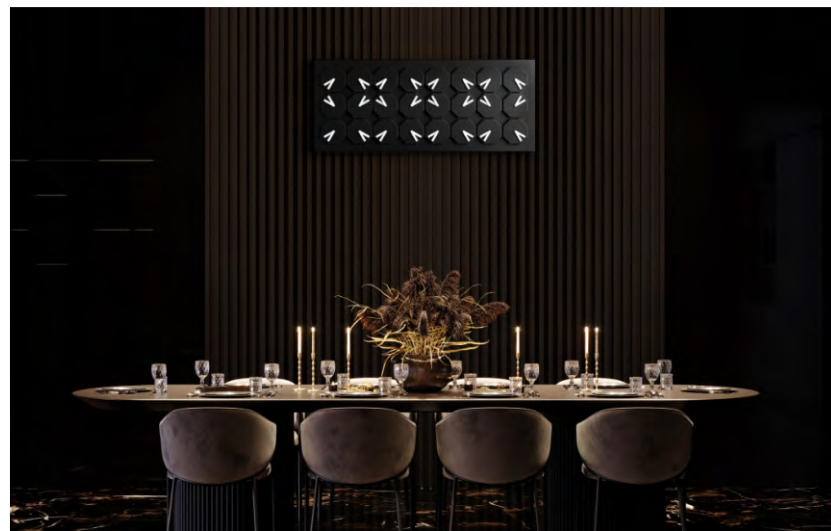

SIMAGIN — AN ELEMENT OF LUXURIOUS INTERIOR DESIGN, A SYMBOL OF PREMIUM BUSINESS, AND A DISTINGUISHED GIFT

SIMAGIN Art Clocks are created for those who value impeccable quality and exclusivity in every detail. These timepieces can become a significant design element — an exquisite accent within an interior space — harmoniously combining advanced engineering craftsmanship with captivating design.

An element of luxury for a home or office interior.

Exclusive models can become a valuable addition to a personal clock collection or a unique interior object.

A prestigious and memorable gift for an anniversary, wedding, housewarming, or a business occasion.

WHAT MAKES SIMAGIN ART CLOCKS UNIQUE

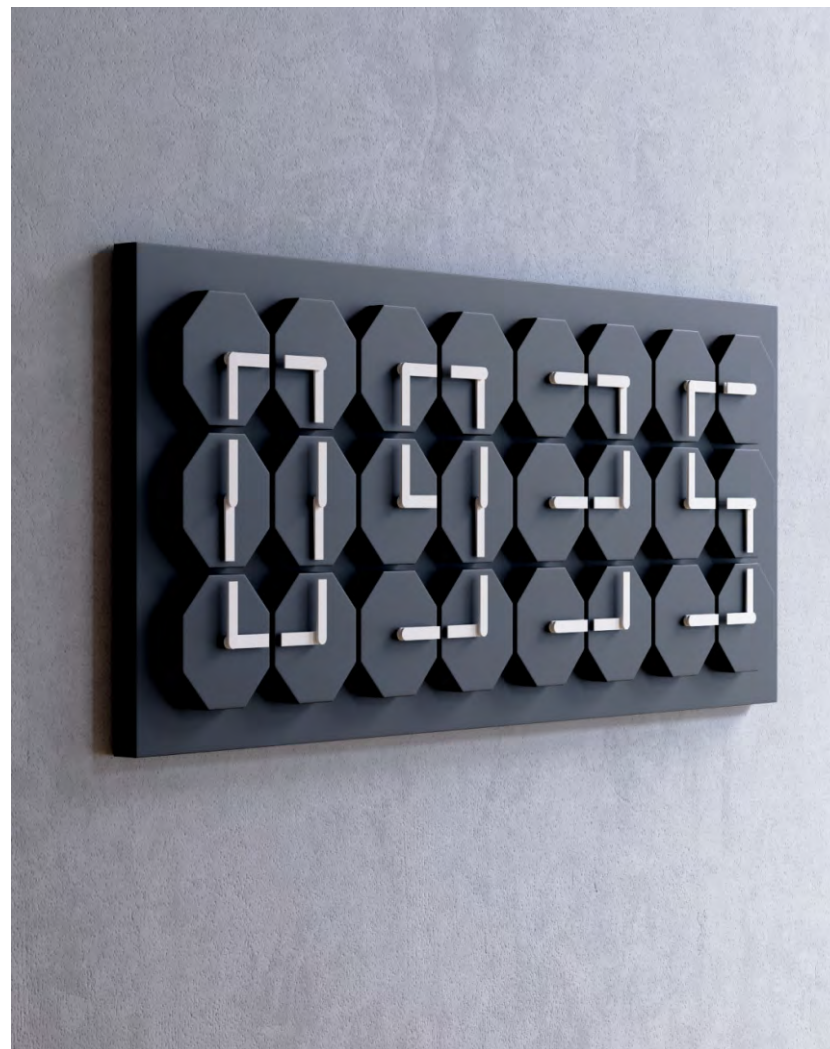

We create **premium interior clocks with a patented dynamic design** that captures attention and carries a meditative effect. The ever-changing patterns help you disconnect from stress, immerse yourself in reflection, and momentarily escape the rhythm of everyday life.

Lightweight yet strong — the clock body is crafted from natural wood fiber using a composite technology developed by our own artisans. The built-in mounting system ensures secure fixation and allows for easy installation without unnecessary complications.

Exceptional quality — each piece is assembled by hand. High-precision Swiss stepper motors, similar to those used in chronographs of elite automotive brands like Bentley and Maserati, along with special premium-grade electronic components, ensure flawless accuracy, smooth performance of the mechanisms, and the synchronized choreography of the hands.

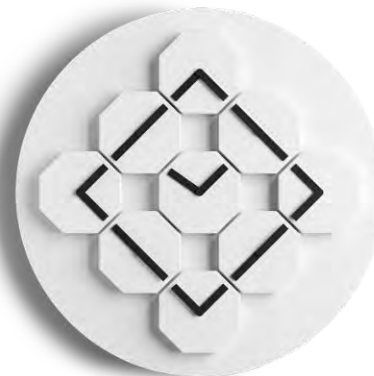

Intelligent control — no buttons on the case. All control is performed remotely via a mobile app with an intuitive interface. **Exclusivity is guaranteed** — every piece is assigned a unique number confirming its authenticity.

We take pride in the fact that our production is based in Russia (Moscow and Penza).

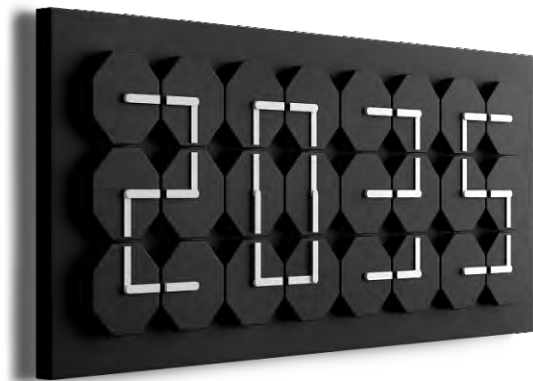

MODEL LINEUP

The brand's collection features two models — OCTA 9 and OCTA 24, available in elegant black and white finishes. Natural wood fiber, a Swiss stepper motor, "Juken Swiss Technology", and premium electronic components. Real-time synchronization upon first connection and artistic animations.

COLLECTION

Grouped dials, rising above the main background, and the symmetrical choreography of the hands create a kaleidoscopic optical effect, mesmerizing with its dynamic patterns. These patterns may evoke associations with natural phenomena and artistic symbols, imbuing a static interior space with soul and harmony.

TRUSTED BY THE MOST DISCERNING CLIENTS

Vladimir Kristovsky —
frontman of the band Uma2rman

"SIMAGIN creates extraordinary clocks. They come with an app that lets you tailor the clock to your needs and style. Each model has a personal number that underlines its exclusivity. I am absolutely delighted!"

Alexander Shchipalkin —
co-founder of Sagarti

"My SIMAGIN clock arrived in secure packaging, and the installation took very little time. I am a person with high standards for design and aesthetics, so it is important to me that an interior has a special touch."

Denis Kushneruk —
head of the Autolocker car studio

"When I saw these designer clocks, I had no doubts left — I was taking them! The extraordinary animation amazed me. Setup was quick: I paired the clock with my phone right away, and it took just minutes. This product is fully worth its price, I assure you!"

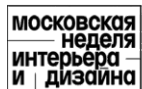

AWARDS AND RECOGNITION

SIMAGIN Art Clocks were included in the top-5 list of the best interior items in 2024, according to the international jury of the "Invented and Made in Russia" competition.

Award winner of the national "Best Industrial Design in Russia" prize.

Recognition from the professional community at interior exhibitions on international and Russian platforms:

- Exhibition at the All-Russian Museum of Decorative Arts;
- Moscow Interior and Design Week;
- ARTDOM.

COMMERCIAL OFFER

Dear designers, architects, dealers, and partners!
