

SIMAGIN
ART CLOCKS

Model: **OCTA 24**

Diagram of overall dimensions, mounting locations and mains connection.

In the diagram, $\varnothing 68$ indicates the location for the sub socket when the power supply is flush mounted in the wall.

Each Simagin product is supplied with a template for precise positioning of the clock on the wall, it is recommended to use it for the final drilling of the holes in relation to the power supply point.
